INTRODUCTION TO INDUSTRIAL ENGINEERING SYLLABUS

Course: IENG 200
Semester: Spring 2015
Number of Credit Hours: 1
Description: An introduction to the basic principles of Industrial Engineering
Prerequisite: Sophomore standing
Textbook: IENG 200 Problems and Tests
Instructor: Jack Byrd, Jr., PhD., PE
Professor, IMSE Department
Email – jabyrd@mix.wvu.edu
Phone – 293-3612 x 1

Course Goals
1. To introduce students to basic analysis approaches used in Industrial Engineering.
2. To introduce students to what it means to be a professional Industrial Engineer.

Student Learning Objectives
Upon completing the course, the student will be able to:

1. Use the principles of scientific management, working smarter and other principles of Industrial Engineering to analyze practical problems and make recommendations for improvement.
2. Use basic analysis tools of capacity analysis, break-even point analysis, and decision trees to solve Industrial Engineering problems.
3. Describe professional practices that are expected of an Industrial Engineer.
4. Develop a career plan

Course Contribution to Professional Component
Engineering Design – 100%

Course Relationship to Program Education Outcomes
The course relates strongly to the following program educational outcomes

1. The course introduces students to basic analytical tools that form the practice of Industrial Engineering. (Outcome 1)
2. The course introduces students to the principles of scientific management and related approaches to analyze type problems assigned to industrial engineers. (Outcome 2)
3. The course introduces students to basic concepts of professionalism, ethics, and career planning. (Outcome 6)

**Grading Elements, Weighting and Scale:**

**Homework**
There will be approximately 14 homework assignments graded during the semester. Each is worth 10 points. Total possible points = 140. The lowest homework grade will be dropped. Homework will be assigned each week. Any homework turned in more than one week late will not be graded.

**Career Notebook:**
You will be doing a series of assignments that will help you develop a career plan. These assignments will lead to the development of a career notebook. Total Possible Points = 50

**Exams**
There will be two exams, each worth 100 points. Total possible points = 200.

**Grade Scale**

- A 90 and above
- B 80 - 89
- C 70 - 79
- D 60 - 69
F 59 and below

**Class Attendance Policy:**

1 percentage point will be deducted from the final average for each missed class. You are allowed one missed class.

**Statement of Social Justice**

West Virginia University is committed to social justice. I concur with that commitment. I expect to foster a nurturing learning environment that is based upon open communication, mutual respect and non-discrimination. Our University does not discriminate on the basis of race, sex, age, disability, veteran status, religion, sexual orientation, color or national origin. Any suggestions as to how to further such a positive and open environment in this class will be appreciated and given serious consideration.

If you are a person with a disability and anticipate needing any type of accommodation in order to participate in this, you must make appropriate arrangements through Disability Services (293-6700). They will identify the nature of the accommodation your disability requires.
